

CAREER OPPORTUNITY

PROJECT HSE MANAGER

RAM is a technical consultancy providing Project Management, Construction Management, Engineering and Advisory services across Canada. RAM is searching for a motivated and energetic Project HSE Manager to join its team in Vancouver, BC. The successful candidate will be an individual that enjoys a challenging, professional and dynamic work place and contributing to the success of a hard-working team.

➔ More About This Role

The Vancouver Fuels Facilities Corporation is building a new fuel delivery system for the Vancouver International Airport. The system includes a new Marine Terminal, Fuel Receiving Facility and a 13km underground pipeline

You will be joining our growing team located in downtown Vancouver and at the project site office in Richmond, BC.

As an HSE Manager, we are looking for someone with exceptional communication skills. The ideal candidate will be self-driven, highly organized and will exceed expectations in the realm of program and process development, training, writing and reporting skills, scheduling and time management.

The ideal candidate is eager to lead our RAM processes and improve upon them when needed. We are looking for someone with a passion and drive for safety, who can ensure that our high standard of quality is maintained. Your work will be dynamic. We are looking for someone that enjoys a fast-paced

Our Core Values are:

1. Integrity
2. Innovation
3. Accountability
4. Fun
5. Care

day and can keep up with a highly energetic team and work environment.

Additional responsibilities of daily operations include:

- Be the first point of contact for all HSE matters at the project site;
- Responsible for the implementation, operations and overseeing of the Project Safety Program including the development of site safety policies and procedures.
- Review, evaluate, and analyze work environments and design site-specific programs and procedures to control, eliminate, and prevent injuries.
- Assists Project Managers and administrators in enforcing safety regulations and codes.
- Document and analyze safety metrics and conduct/review incident reports to discover trends to assess appropriate resources to areas where the safety risk is highest.
- Direct and review the analysis of accident and injury data, identifying the needs for new or modified occupational safety programs for sub-contractors.
- Manage the Return to Work Program.
- Maintains records, prepares reports and composes correspondence relative to safe work procedures.
- Prepares and submits weekly and monthly inspection activity reports.
- Reviews incident reports to detect problem areas related to employee safety. Gathers evidence and prepares reports on code violation complaints and incidents/injuries.
- Maintains administrative control of records related to safety and health programs.
- Conducts jobsite surveys on a regular basis to detect code violations, hazards, improper work practices and recommends corrective actions.
- Conducts training, orientation, toolbox and safety meetings for new hire and subcontractor employees. Explains the WCA and OHSR rules and standards that pertain to construction safety to field staff.
- Conducts presentations to stakeholders.

- Provide advice and recommendations to management, sub-contractors and other client groups on a broad range of occupational safety issues and decisions.
- Implements and acts as a resource to the Joint Worksite committee as required by the WCA and OHSR legislation.
- Attends JOHSC, site safety and toolbox meetings on a regular basis.
- Develop and implement action items for certifications such as ISO 45001 and COR.
- Maintain office supplies, safety equipment and earthquake inventory.
- Other duties as required.

➔ Ideal Candidate Requirements

- CRSP or Safety designation or equivalent experience;
- Relevant experience (at least 5+ years) in a similar role;
- Proficient with Microsoft Office programs (Word, Skype, Outlook, Excel, PowerPoint and SharePoint);
- Keen attention to detail and exceptional communication skills when preparing business correspondence (verbal and written);
- Self-motivated who takes initiative independently, and strong team player in a collaborative environment;
- Ability to prioritize, multi-task and meet deadlines. This role requires strong organization skills given the broad scope of responsibilities;
- Pleasant, calm demeanor and customer-service oriented;
- Strong work ethic, ability to use tact and good professional judgement;
- IT savvy; and
- Class 5 Driver's License
