

CAREER OPPORTUNITY

PROJECT MANAGER

Our Core Values are:

1. Integrity
2. Innovation
3. Accountability
4. Fun
5. Care

RAM is a technical consultancy providing Project Management, Construction Management, Engineering and Advisory services across Canada. RAM is searching for a motivated and energetic Project Manager to join its team in Vancouver, BC. The successful candidate will be an individual that enjoys a challenging, professional and dynamic work place and contributing to the success of a hardworking team.

➔ More About This Role

RAM's Project Management Team (PMT) are infrastructure delivery experts, from transportation to utility projects. Our experienced, in-house professionals have built cruise ship piers, rapid transit projects, utilities, overpasses, and highways for public and private clients. Due to extensive growth, our team requires a Project Manager to be a part of our team.

Further Responsibilities include the following:

- Overall project leadership;
- Manage consultants/contractors and respond to technical inquiries;

- Prepare, develop, and report on project scopes, risk, schedules and budgets;
- Team leadership, including the coordination of resources;
- Meeting/workshop facilitation and leadership;
- Provide technical and administrative support through all phases of projects;
- Project Scheduling and cost estimate preparation;
- Contract administration leadership;
- Stakeholder management and engagement;
- Permitting management;
- Communication management;
- First Nations engagement;
- Project reporting (via meeting minutes, project status reports/memos, etc.), and field reviews;
- Chair and attend project and site meetings and communicate directly with clients/sub-consultants/contractors, maintaining a respectful and professional working relationship;
- Active involvement in business development and proposal preparation; and
- Mentor and develop Assistant Project Managers

Ideal Candidate Requirements

Required Experience:

- Minimum of 5 years of consulting or public sector experience;
- Bachelor's Degree/Diploma in Civil, Electrical, Mechanical or similar education;
- Registered Professional Engineer (P.Eng.) with EGBC, or Registered Applied Science Technologist (AScT) with ASTTBC considered an asset;
- Solid background with the application of project management best practices, tools, and techniques.
- Project Management Professional (PMP) designation with the Project Management Institute (PMI) considered an asset;
- Demonstrated project leadership, organizational and time management skills;
- Strong working knowledge of applied design and construction methods;
- Demonstrated experience in a client-facing role;
- Good working knowledge of Microsoft Office Suite (Outlook, Word, Excel, SharePoint, Skype and Project);
- Effective verbal and written communication and presentation skills with project stakeholders, the public, clients, regulatory agencies and consultants/contractors;

- Excellent report and proposal writing skills;
- Experience assembling, managing and delivering construction contracts. The MMCD Certified Contract Administrator (MMCD CCA) designation is considered an asset;
- Proven conflict resolution skills;
- Experience managing sub-consultants and contractors;
- Experience with site inspections during construction; and
- Familiar with relevant/applicable software (such as AutoCAD/Primavera/etc.).
