

# CAREER OPPORTUNITY

## CONSTRUCTION INSPECTOR (EXPRESSION OF INTEREST)

Our Core Values are:

1. Integrity
2. Innovation
3. Accountability
4. Fun
5. Care

RAM is a technical consultancy providing Project Management, Construction Management, Engineering and Advisory services across Canada. RAM is proactively searching for a motivated and energetic Construction Inspector to join its team in Vancouver, BC. The successful candidate will be an individual that enjoys a challenging, professional and dynamic work place and contributing to the success of a hard-working team.

### ➔ More About This Role

In anticipation of upcoming requirements with our current projects, our team is proactively looking to speak with Construction Inspectors for our Vancouver Airport Fuel Delivery project and other upcoming requirements.

Responsibilities include the following:

- Maintain an effective working relationship with the Client's staff, the contractor and other agencies.
- Communicate relevant inspection and project information to the Client's Project Engineer/ Manager, operations personnel, and other key project personnel. Report any site issues and potential delays or risks.

- Abide by RAM's and Prime Contractor's safety program and WorkSafe BC Regulations and reporting unsafe activities to responsible supervisor.
- Attend preconstruction meetings and other project meetings as necessary. Produce meeting minutes where required.
- Monitor construction works to ensure compliance with the contract documents, which may extend to any or all part of the work.
- May be required to track cost and schedule data, verify Contractor's labour, equipment and materials use, and participate in review of Contractor's change requests or claims.
- Monitor the quality of work, identifying deficiencies in materials and workmanship and elevating as necessary.
- Inform the Project Engineer/Manager of any non-conformance to the contract documents and creates a non-conformance report for tracking.
- Maintain documentation and photographic record of inspected works, including completion of Daily Inspection Reports.
- May take as-constructed field measurements and red-line construction prints for record drawings.
- May be required to monitor adherence to permit requirements and safety regulations for approved, permitted crossings by inspecting work within a right of way and any third-party work around the Client's assets including;
  - Monitor contractors and equipment operators for excavation or blasting around assets, determining the effect of excavation/blasting activity on public safety, asset/system integrity and reliability;
  - Document excavation and inspection activities and working conditions;
  - Explain/enforce code compliance and company standards for all permitted work within rights of way and any non-permitted work in proximity to any assets.

## → Ideal Candidate Requirements

Required Experience:

- 3 years of construction management experience, or a combination of less experience and a degree/diploma in civil or electrical engineering.
- One or more of the following certifications:
  - API-1169
  - NACE Level 1 and/or 2 (Coating)
  - CWB Level 1 (Welding)
- Eligibility for registration at the technician's level (C. Tech.) by the Applied Sciences Technologists and Technicians of British Columbia, or as an EIT/P Eng. with Engineers and Geoscientists BC is considered an asset.
- Courteous, professional communication and interpersonal skills regardless of audience.
- Sound organizational and written communications skills, as well as working knowledge of computer/tablets, for preparation of a variety of external and internal reports, correspondence and other inquiries.
- Have working knowledge of construction standards, codes, permits and safety requirements.
- Valid British Columbia Driver's license.
