

CAREER OPPORTUNITY

SITE SUPERINTENDENT

RAM is a technical consultancy providing Project Management, Construction Management, Engineering and Advisory services across Canada. RAM is searching for a motivated and energetic Site Superintendent to join its team in Vancouver, BC. The successful candidate will be an individual that enjoys a challenging, professional and dynamic work place and contributing to the success of a hard-working team.

➔ More About This Role

The Vancouver Fuels Facilities Corporation is building a new fuel delivery system for the Vancouver International Airport. The system includes a new Marine Terminal, Fuel Receiving Facility, and a 13km underground pipeline. Your role includes the management and supervision of all construction activities at the Tank Farm site located at YVR.

Specific responsibilities of daily operations include:

- Oversee and inspect the field fit, welding and installation of pipping, valves, and structural components of various contractors work to meet the requirements and specifications of the project.
- Oversee and inspect field coating of storage tanks and piping to meet the requirements and specifications of the project.

Our Core Values are:

1. Integrity
2. Innovation
3. Accountability
4. Fun
5. Care

- Audit contractor's QC documentation to ensure it is being compiled accurately and in a timely manner.
- Complete RAM QA documentation and check sheets daily to confirm sound quality practices (or otherwise) are being followed.
- Assist with the raising, coordination and timely close out of Requests for Information (RFIs) as required.
- Assist with the raising of Non-Conformance Reports (NCRs) as applicable and work with the project team for the timely resolution of such items.
- Monitor on-site Performance Processes, inspection and testing plus verification of Administrative paperwork.
- Day to day management and onsite coordination of contractors ensuring Safety, Environment, Quality, cost and schedule parameters are being met.
- Attend daily tool box talks, coordinate with and help contractors plan day to day activities.
- Recognize, diagnose and communicate any problems, questions or concerns as they arise.
- Consistently provide support to management with planning, risk management, costing and procurement.
- Analyze applicable reports, drawings, specifications and related project documentation.

➔ Ideal Candidate Requirements

- 10+ years of experience as a Field Superintendent on industrial projects.
- Computer Skills – Microsoft Office Software
- Valid Driver License
- Ability to read and interpret project schedules, engineering plans, and specifications.
- Demonstrates effective leadership skills.
- Effective communication skills both written and verbal.
