

# CAREER OPPORTUNITY

## MARINE SUPERINTENDENT

RAM is a technical consultancy providing Project Management, Construction Management, Engineering and Advisory services across Canada. RAM is searching for a motivated and energetic Marine Superintendent to join its team in Vancouver, BC. The successful candidate will be an individual that enjoys a challenging, professional and dynamic work place and contributing to the success of a hard-working team.

### ➔ More About This Role

The Vancouver Fuels Facilities Corporation is building a new fuel delivery system for the Vancouver International Airport. The system includes a new Marine Terminal, Fuel Receiving Facility, and a 13km underground pipeline. Your role includes the management and supervision of all construction activities related to the Marine Terminal in Richmond, BC.

Specific responsibilities of daily operations include:

- Plan, direct and supervise workers engaged in marine construction. Activities include planning, organizing, directing and controlling methods of construction, manpower levels, material quantities equipment, work schedule and reviewing documentations.
- Coordinate assigned work with in-house trades, subcontractors and company departments.

Our Core Values are:

1. Safety
2. Innovation
3. Integrity
4. Fun
5. Sustainability

- Conduct project safety meetings and enforce compliance with project safety program requirements for all in-house trades and subcontractors.
- Supervise, mentor and coach direct reports in your assigned work area as it relates to company policies, procedures, and technical work requirements.
- Provide liaison between field engineering, estimating, and trade to ensure compliance of construction with plans and specifications and that work is carried out to the highest standard.
- Inspects work areas to determine type of work required, materials and equipment to be used at the jobsite.
- Coordinate and execute mobilization efforts and jobsite setup.
- Resolve construction problems (lack of productivity, work interfaces, etc.) and constructability challenges as required.
- Ensure all required materials, equipment, inspections, etc., support craft activities and project schedule are maintained throughout assigned projects.
- Accountable for oversight and coordination of various contractors in the day to day management of safety, environment, cost, schedule and quality items as they pertain to the marine works.

### ➔ Ideal Candidate Requirements

- 10+ years of experience as a Field Superintendent in the marine structures / heavy-civil construction industry.
- Computer Skills – Microsoft Office Software
- Valid Driver License
- Ability to read and interpret project schedules, engineering plans and specifications.
- Demonstrates effective leadership skills.
- Effective communication skills both written and verbal.
