

# CAREER OPPORTUNITY

## MANAGER OF CIVIL ENGINEERING SERVICES

RAM is a technical consultancy providing Project Management, Construction Management, Engineering and Advisory services across Canada. RAM is searching for a motivated and energetic Manager for our Civil Engineering team. The successful candidate will be an individual that enjoys a challenging, professional and dynamic work place and contributing to the success of a hard-working team.

Our Core Values are:

1. Safety
2. Innovation
3. Integrity
4. Sustainability
5. Fun

### ➔ More About This Role

Due to extensive growth, our team requires a Manager for our Civil Engineering team to join us on a permanent basis. This person will be an integral factor in growing and leading this division. The selected candidate will have the opportunity to create their own legacy within RAM, being responsible for the profitability and growth of the team. This role will incorporate a blend of client interaction, project management and design.

Further Responsibilities include the following:

- Team management of the Civil Engineering/Land Development Team,
- Participating and leading in business development and the pursuit of new clients;
- Organizing, and participating in RFP processes for various opportunities;

- Estimate hours and costs, within established guidelines, for new business opportunities;
- Act as a client relationship manager
- Monitor budget and progress on projects, rolled up into the divisional financial summary;
- Develop and maintain a resource loaded schedules and coordinating resources requirements;
- Act as the key contact on projects with clients, stakeholders, sub-consultants;
- Collaborate with other divisions to actively promote RAM and its other services;
- Ensuring design work interfaces well with that of other disciplines;
- Identify and resolve unusual or complex problem; and
- Promote RAM as the consultant of choice

### → Ideal Candidate Requirements

- Bachelor's Degree in Civil Engineering;
- 12+ years of experience with municipal engineering projects and underground utilities design;
- Registered as a P.Eng. with Engineers and Geoscientists BC;
- Experience leading business development and proposal activities;
- Preferred proficiency with AutoCAD Civil 3D in drafting and design of civil infrastructure (Sewer, Water, Storm, and Road Works);
- Experience in underground electrical and communication duct design; specifically, with BC Hydro or Telus is an asset;
- Strong oral and written communication skills;
- Familiarity with Municipal, MMCD and other local standards.
- Familiarity with Utility Geographic Information Systems (GIS) software is an asset.
- Field experience is an asset;
