

CAREER OPPORTUNITY

CIVIL INSPECTOR / EIT

RAM is a technical consultancy providing Project Management, Construction Management, Engineering and Advisory services across Canada. RAM is searching for a motivated and energetic Civil Inspector / EIT for our Project Services team. The successful candidate will be an individual that enjoys a challenging, professional and dynamic workplace and contributing to the success of a hard-working team.

➔ More About This Role

Due to extensive growth, our team requires a Civil Inspector/ EIT to join us on a permanent basis. The selected candidate will provide internal depth to the existing Project Services Team, supporting construction inspections and when needed civil design.

Further Responsibilities include the following:

- Attend preconstruction meetings and other project meetings as necessary. Produce meeting minutes where required.
- Monitor construction works to ensure compliance with the contract documents, which may extend to any or all part of the work.
- Report any site issues and potential delays or risks. May be required to track cost and schedule data, verify Contractor's labour, equipment and materials use, and participate in review

Our Core Values are:

1. Safety
2. Innovation
3. Integrity
4. Sustainability
5. Fun

- Monitor the quality of work, identifying deficiencies in materials and workmanship and elevating as necessary.
- Maintain documentation and photographic record of inspected works, including completion of Daily Inspection Reports. Communicates relevant inspection and project information to the Client's Project Engineer/ Manager and/or other key project personnel.
- Informs the Project Engineer/Manager of any non-conformance to the contract documents and creates a non-conformance report for tracking.
- May take as-constructed field measurements and red-line construction prints for record drawings.
- May be required to monitor adherence to permit requirements and safety regulations for approved, permitted crossings by inspecting work within a right of way and any third-party work around the Client's assets including:
 - documenting excavation and inspection activities and working conditions
 - explain/enforce code compliance and company standards for all permitted work within rights of way and any non-permitted work in proximity to any assets.
- Provide other technical support as needed through all phases of the project
- Follow RAM and Prime Contractor's safety program and WorkSafe BC Regulations and report unsafe activities to responsible supervisor.

➔ Ideal Candidate Requirements

- Degree in Civil Engineering from a recognized Post-Secondary Institute and Registration or eligibility as an EIT with EGBC; or
- Diploma in Civil Engineering Technology or a related field and Registered with ASTTBC.
- 2+ years of Municipal Civil Infrastructure projects including road and utility upgrades/replacements, pipeline installations, and erosion and sediment control.
- Intermediate skills with Microsoft Office Suite.
- Proficiency with AutoCAD and/or Civil 3D.
- Experience with projects involving Quality Management, Field Inspection/Engineering, and writing reports.
- Familiar and able to comply with MMCD specifications and local municipal specs and bylaws
- Interested in Business Development activities including networking.
- The following certifications are preferred: Construction Safety Training, NACE and CWB certification, and Erosion and Sediment Control certification.
