

# CAREER OPPORTUNITY

## INTERMEDIATE STRUCTURAL ENGINEER

RAM is a technical consultancy providing Project Management, Construction Management, Engineering and Advisory services across Canada. RAM is searching for a motivated and energetic Intermediate Structural Engineer. The successful candidate will be an individual that enjoys a challenging, professional and dynamic workplace and contributing to the success of a hard-working team.

Our Core Values are:

1. Safety
2. Innovation
3. Integrity
4. Sustainability
5. Fun

### ➔ More About This Role

Due to extensive growth, our team requires an Intermediate Structural Engineer to join us on a permanent basis. This person will be an integral factor in growing and leading this division. This role will incorporate a blend of client interaction, project management and design.

Further Responsibilities include the following:

#### **Design**

- Structural Design experience for both substructure and superstructure infrastructure;
- Ability to perform steel and concrete designs;
- Follow industry standards and international codes;

- Assist in the preparation of estimates for both design and construction;
- Respond to questions from construction crews, stakeholders, customers, utilities, and relevant third parties;
- Complete required design documentation;
- Review project deliverable and approval, as required;
- Ensuring design work interfaces well with that of other disciplines;
- Identify and resolve recurring problems;
- Identify and escalate unusual or complex problems to Senior Structural Engineer.

### **Project Management**

- Experience monitoring project scope, schedule, and budget;
- Estimating design costs and scope change management;
- Stakeholder coordination;
- Risk identification and analysis;
- Contribute to RFP proposal submissions including writing execution methodology.

### **Business Development**

- Maintain relationships with existing clients to foster repeat business;
- Participate in RFP processes for various opportunities;
- Estimate hours and costs, within established guidelines, for new business opportunities;
- Help grow RAM's revenue and obtain client satisfaction by performance excellence;
- Promote RAM as the consultant of choice.

## **Ideal Candidate Requirements**

- Bachelor's Degree in Civil Engineering or technical qualification and appropriate experience;
- Registered as a P.Eng. with Engineers and Geoscientists BC and Project Management Professional designation are preferable;
- 5+ years of Municipal Engineering, Roads, Bridges and Highways, Transportation, and Marine experience;
- S-Frame Modeling experience preferred;
- Familiar and able to follow industry standards and international codes;
- Experience with business development activities including the RFP process and Proposal preparation/submission;
- Project Management/Coordination for engineering assignments; and
- Strong oral and written communication skills.
