RAM is a technical consultancy providing Project Management, Construction Management, Engineering and Advisory services across Canada. RAM is searching for a motivated and experienced Mechanical Superintendent to join its team in Vancouver, BC. The successful candidate will be an individual that enjoys a challenging, professional, and dynamic workplace and contributing to the success of a hardworking team.

➔ More About This Project and Role

The Vancouver Fuels Facilities Corporation is building a new fuel delivery system for the Vancouver International Airport. The system includes a new Marine Terminal, Fuel Receiving Facility, and a 13km underground pipeline. Your role includes the management and supervision of all construction activities at the Tank Farm site located at YVR.

Responsibilities of daily operations include:

- Plan, direct and supervise workers engaged in project construction. Activities include planning, organizing, directing and controlling methods of construction, manpower levels, material quantities equipment, work schedule and reviewing documentations.

- Oversee the field fit, welding and installation of piping, valves, and structural components of various contractors work to meet the requirements and specifications of the project.
- Assist with the raising, coordination and timely close out of Requests for Information (RFIs) as required.
- Assist with the raising of Non-Conformance Reports (NCRs) as applicable and work with the project team for the timely resolution of such items
- Monitor on-site Performance Processes, inspection and testing plus verification of Administrative paperwork.
- Day to day management and onsite coordination of contractors ensuring Safety, Environment, Quality, cost and schedule parameters are being met.
- Attend daily toolbox talks, coordinate with and help contractors plan day to day activities
- Recognize, diagnose and communicate any problems, questions or concerns as they arise.
- Consistently provide support to management with planning, risk management, costing and procurement.
- Analyze applicable reports, drawings, specifications and related project documentation.
- Liaise and coordinate with onsite personnel in an open, respectful and professional manner.
- Maintain and unwavering commitment to Safety in all that we do.
- Carry out work ethically and diligently at all times
- Maintain professionalism and uphold RAM Values at all times
- Other duties, as assigned by the Area Manager

➔ Ideal Candidate Requirements

- 5+ years of experience as a Field Superintendent on industrial/heavy-civil construction industry.
- Working knowledge of Microsoft Suite (Word, Skype, Outlook, Excel, PowerPoint and SharePoint).
- Valid Driver License.
- Ability to read and interpret project schedules, engineering plans, and specifications.
- Demonstrated project leadership, organizational and time management skills.
- Effective communication skills both written and verbal.
