

# CAREER OPPORTUNITY

## EXPRESSION OF INTEREST - CIVIL INSPECTOR / EIT

Our Core Values are:

1. Safety
2. Innovation
3. Integrity
4. Sustainability
5. Fun

RAM is a technical consultancy providing Project Management, Construction Management, Engineering and Advisory services across Canada. RAM is searching for a motivated and energetic Civil Inspector / EIT for our Project Services team. The successful candidate will be an individual that enjoys a challenging, professional and dynamic workplace and contributing to the success of a hard-working team.

### More About This Role

In anticipation of upcoming requirements our team is proactively looking to speak with Civil Inspector/EITs. The selected candidate will provide internal depth to the existing Project Services Team, supporting construction inspections and when needed civil design.

Further Responsibilities include the following:

- Maintains an effective working relationship with the Client's staff, the contractor and other agencies;
- Communicates relevant inspection and project information to the Client's Project Engineer/ Manager, operations personnel, and other key project personnel;
- Report any site issues and potential delays or risks;
- Abide by RAM's and Prime Contractor's safety program and WorkSafe BC Regulations and report unsafe activities;

- Attend preconstruction meetings and other project meetings as necessary. Produce meeting minutes where required;
- Monitor construction works to ensure compliance with the contract documents, which may extend to any or all part of the work;
- May be required to track cost and schedule data, verify Contractor's labour, equipment and materials use, and participate in review of Contractor's change requests or claims;
- Monitor the quality of work, identifying deficiencies in materials and workmanship and elevating as necessary;
- Informs the Project Engineer/Manager of any non-conformance to the contract documents and creates a non-conformance report for tracking;
- Maintain documentation and photographic record of inspected works, including completion of Daily Inspection Reports;
- May take as-constructed field measurements and red-line construction prints for record drawings;
- May be required to monitor adherence to permit requirements and safety regulations for approved, permitted crossings by inspecting work within a right of way and any third-party work around the Client's assets including;
  - documenting excavation and inspection activities and working conditions.
  - explain/enforce code compliance and company standards for all permitted work within rights of way and any non-permitted work in proximity to any assets.
- Experience and/or interest in Business Development, Networking to attract new work;
- Responding to information requests from site and completing project documentation including 'as-builts', calculations and return of data to the client; and
- Provide technical support through all phases of the project.

### ➔ Ideal Candidate Requirements

- Degree in Civil Engineering from a recognized Post-Secondary Institute and Registration or eligibility as an EIT with EGBC; or Diploma in Civil Engineering Technology or a related field and Registered with ASTTBC.
- 2+ years of Municipal Civil Infrastructure projects including road and utility; upgrades/replacements, pipeline installations, and erosion and sediment control;
- The following certifications are preferred: Construction Safety Training, NACE and CWB certification, and Erosion and Sediment Control certification.
- Intermediate skills with Microsoft Office Suite;
- Proficiency with AutoCAD and/or Civil 3D;
- Familiar and able to comply with MMCD specifications and local municipal specs and bylaws; and
- Experience with projects involving Quality Management, Field Inspection/Engineering, and writing reports.
